

# Bond Construction Bulletin

December 17, 2009

Napa Valley Community College District

## **CONSTRUCTION BULLETIN**

### **Mechanical Equipment Enclosures Replacement project (MEER)**

**work to start Monday, December 21, 2009**

The Mechanical Equipment Enclosures Replacement project work will commence on the roofs of buildings 900, 1100, 1300, 1400, 1500, and 1600 starting on Monday, December 21, 2009. Work will also take place in the Library basement and in the lobby area of the main floor of the Library. This work will continue during the work week for the next four (4) weeks.

New cooling units will be placed starting mid February 2010 and the current thinking is that all units will be placed over four (4) long weekends, weather permitting.

**WHY: This project will replace the rooftop structures and HVAC equipment on bldg. 900, 1100, 1300, 1400, 1500, and 1600. The new equipment will utilize chilled water from the new Central Chiller Plant.**

*Thank you for your patience during these and other improvement projects.*
