Napa Valley Community College District

ADDENDUM TO THE REGULAR MEETING OF THE BOARD OF TRUSTEES
December 11, 2008
6:00 p.m. Closed Session
6:30 p.m. Return to Public Session
Fairfield Inn, 3800 Broadway Street
American Canyon, CA 94503

9.0 INFORMATION ITEMS

9.6 Update on College Classrooms in American Canyon
Expansion of classroom space into the American Canyon area for general education purposes was included as part of the ballot language of the Measure N Projects list. The District has worked with Napa Valley Unified School District to build three new classrooms on the site of the new American Canyon High School. In addition to those three classrooms, the college will be able to use high school classrooms during the evening hours to further expand offerings to area residents. Dan TerAvest will provide a brief update of this project.

9.7 Discussion of Process to Seek Community Input for Development of College Property
At its meeting of October 9, 2008, the board discussed its interest in agendizing an informational item over upcoming months that would allow members of the public to present ideas for development of college property, including the corner of Imola and Soscol, the Community Education Center (the Armory) and the Mt. Veeder property. At its November 13, 2008 meeting, the board heard a presentation on the procedures and considerations for development, sale, or lease of the undeveloped college property. As the board continues to refine the parameters of what it considers to be appropriate use of the land, the information will be provided to individuals who express an interest in presenting an idea or plan at a future board meeting.
