CANVAS information
This document contains important information about CANVAS. Canvas is one of the two online platforms we will be using in this online course.

You will find a detailed description of the course and the requirements for this online class in the course syllabus once you log into Canvas.
This course requires the use of TWO online platforms:

- **CANVAS**: The learning-management system used at NVC where instructors use MODULES to share class materials, and where important class documents are posted. Instructors communicate with online students via announcements in Canvas. Students can also keep up with their grades in Canvas.

- Vistas **SUPERSITE**: The online component for your VISTAS program. In the Supersite you will find all of the audio and video materials, and the practice activities, tutorials, assessments and other resources that will help you in this learning experience. ALL activities will be assigned and completed in the Supersite.
It is important that you log into Canvas right away. In Canvas you will find important information and instructions to get you ready for the first day of class (Monday, August 13):

- Spanish Placement test
