

## **2019-2021 Board of Trustee Goals**

1. Support the District's strategic initiatives through regular review and adoption of recommended actions that ensure fiscal stability and foster a climate that supports student success.

For example: Conduct regular reviews of board goals and institutional strategic plans and tie them to board agenda items.

2. Become a well-informed, active board by pursuing continuing education and professional development, advancing state or local decisions that support District Goals, and cultivating opportunities to connect with constituent groups (both internal and external) to facilitate meaningful dialogue around common interests.

For example: Attending CCLC conference; supporting legislation that addresses college affordability and accessibility; hosting or attending events that provide opportunities to meet with constituents.

3. Work toward cohesiveness as a board as well as identify and develop working relationships with educational partners such as NCOE and Napa County School Boards.

For example: Create bi-annual opportunity for social interaction among board members; initiate an annual joint meeting of education Boards to discuss opportunities to leverage common resources to achieve common goals.
