TWO VIRTUAL CLASSES TO CHOOSE FROM June 30 – September 17

Tuesdays 12:15 – 12:45 p.m. | communityfit movelab is designed to help you create a mindful and fulfilling relationship with movement. It's a great class for both new and experienced movers that will challenge you with body-weight exercises, flexibility and mobility drills, balancing challenges, and meditation. You'll not only learn about yourself, but have fun doing it.

Thursdays 12:15 – 12:45 p.m. | communityfit yoga is designed to both improve fitness and promote stress relief. By performing slow movements and postures and focusing on long, deep breaths, you will stretch and strengthen your muscles and increase your range of motion. You may notice improvements in your mind as well.

All fitness levels welcome. Always check with your doctor before starting any exercise program. Registration and waiver forms are required to participate in classes; see web page for full details. WHA cannot guarantee the security of any communications you make to the host or instructor over WebEx. Please do not share any personal information over any CommunityFIT WebEx session.
