Yes	No
-----	----

If you answered no, skip to question 20.

19a. Job placement rates for students completing certificate programs and CTE (career-technical education) degrees for last three years available data:

For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2022-23 job placement rate will be the number of students who completed the program in 2021-22.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2021-22, you do not need to report a job placement rate for 2022-23. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition – but please describe your definition and methodology in Question 19.

20. Please use the text box below to provide any comments or context regarding the data submitted in this report (optional, no word limit):

21. Reflecting on your Institution's student achievement(s), what efforts/initiatives/competencies have you found to be fundamental in supporting the recent successes you've observed/reported? Please describe any innovations and improvements along with a brief narrative of how it was achieved.

Napa Valley College's successful course completion rate has exceeded the institution-set standard over past three years and approached the established stretch goal in one of those years. The increase is attributed to a number of changes that have been implemented in recent years – most notably by providing professional learning opportunities for faculty and adopting essential practices associated with the Guided Pathways framework. NVC's Academic Senate designed and offered trainings on classroom practices, focusing on culturally responsive pedagogy and distance education pedagogy. In 2024, NVC implemented Program Mapper to communicate degree requirements and course sequencing associated with programs in the 7 Exploration Pathways. Improvements in these areas were supported through federal and state grants.

22. What professional development can the Commission coordinate to support your Institution in achieving its student success goals within the next three-year cycle?

Continue to share effective practices with the field via Regional Convenings. Suggestions for future topics:
how to support transfer achievement; how to encourage students' utilization of Program Mapper to understand program requirements.

23. Please confirm you have reviewed your institution's program listing in the Accreditation Platform. In the box below, please select one of the following.

- I reviewed the program listings and all of my institution's programs are correctly listed
