RE: **Sociology Program Review – Fall 2022**

I have completed my review of your 2022 program review report and summary. Thank you and your colleagues for your excellent work in conducting this review and for participating in the program review process. There are several areas in your review that I want to express my support and appreciation for:

- Your overall reflection and honest assessment of the program and its role at NVC, specifically as related to the retention and course completion of African-American/Black students.
- The overcoming of challenges associated with the pandemic and the flexibility exhibited to alter delivery of programming to students.
- Stated intent and planning to develop program maps.
- Intent to review development and offering of sociologically relevant coursework in the community in a variety of areas.

Please note: the administrator summary page shows as blank but Dr. Marriott did provide appropriate feedback to OAA in both written and verbal forms.

Overall, this program demonstrates a clear commitment to quality instruction and a commitment to student success. Challenges have arisen yet the faculty and staff adapt and the adaptability of all is to be strongly commended.
