Assignments

Reading Assignments

1. Students listen to a short audio recording of a speaker sharing what his daily life is like. Students listen to the recording multiple times, focusing on the pronunciation and flow of the narration. They then read back the same content in their own audio recording, focusing on copying the native speaker's pronunciation and rhythm.
2. Students listen to an audio clip about a woman's day. They then read a transcript of the clip and then listen a second time to see how much more they can understand while reading along with the transcript. Students read and answer comprehension questions after studying the clip and transcript.

3. Students watch a video clip of siblings who just moved into an apartment in Mexico. While unpacking, they find a ring left by the previous owners and use clues in the apartment to track down the owner. Students read and answer comprehension questions after watching the video.

Writing Assignments

- 1. Students choose an image that has at least 3 people doing something. They write out what each of the people in the photo are doing and then bring the photo and their notes to class to continue to practice talking about it with other students.
- 2. Watch a video where the narrator shares a recent trip they took. Write a list of activities she talks about, items she sees while travelling and places she visits. Use this list to study new vocabulary related to travel.

Other Assignments

- 1. Students record in a video discussion board, introducing us to a member of their family or a close friend. In the video they show us the friend's picture, describe them for us, share a little about their personality and tell us what the person likes to do. Then they watch 3 other videos and comment on their classmates' videos.
- 2. Students record a video in a video discussion board telling the class about a time they visited someone or traveled somewhere. They choose at least 3 questions from a list to answer in their description, describing things such as where they went, who they were with, what they ate, and where they stayed. They then watch 3 other videos and comment on their classmates' videos.
