

PSYC 125

Human Development

3 Units

54 hours lecture; 54 hours total

Recommended Preparation: PSYC 120

This course provides an overview, from a psychological perspective, of human development from conception through death, including biological and environmental influences. Theories and research of physical, cognitive, personality, and social development are examined, as well as attention to developmental problems.

CSU, UC

Student Learning Outcomes:

1. Understand the physical, cognitive, emotional, and social domains of development across the human lifespan.
2. Analyze key concepts, theories, and research in developmental psychology.
